HD PVR Rocket: carry a personal HD video recorder in your pocket!

HD PVR Rocket is portable and USB bus powered. Record your best game play at gaming events or at your friends home. Simply plug a USB thumb drive into the USB slot on the front of the Rocket and you can start recording from a PS4, Xbox One, Xbox 360, Wii U, PC game system or Sony PlayStation® 3*.

Record your best gaming moves without slowing down your PC. The video compression is done inside HD PVR Rocket so you can record your PC game play in HD without slowing down your PC.

HD PVR Rocket records video at up to 1080p and can record from either HDMI (without HDCP protection) or Component Video.

Also connect to your PC and use Hauppauge Capture for recording and streaming

HD PVR Rocket also can be connected to your PC so you can record directly to your disk drive. Use our Hauppauge Capture application to record and stream game play, trim your videos and upload them to YouTube.

Amazing HD audio and video quality

HD PVR Rocket records at resolutions up to 1080P30 using H.264 video compression. The H.264 format is used by Blu-ray discs and exceeds other video compression standards in quality and disk space consumption, providing a crisp image and amazing digital sound. H.264 uses 1/3 the disk space compared with the popular MPEG-2 format.

Record your game commentary too!

HD PVR Rocket has a build-in audio mixer, so you can record game commentary while you record your video game play.

Make a YouTube channel and share your best game play with your friends

Once you have made your recordings, you can share them with your friends on YouTube. Make your own YouTube channel and get famous!

Stream your game play

HD PVR Rocket works with StreamEez, Hauppauge's YouTube and Twitch streaming application. Create your own streaming channel and use the Rocket to accelerate your streams!
